TnT Tourniquets-Preemie size

Instructions for Use: Tender and Tiny (TnT) Tourniquets
1. Remove from package and inspect product to ensure there are no defects.
2. Stretch tourniquet a few times to check flexibility.
3. Place tourniquet under desired extremity.
4. Lift both sides to create pressure (not too tight).
5. Gently tie like a bow leaving one loop under the tourniquet to secure.
6. To remove pull one end and the tourniquet will release.

Wipe clean with alcohol, can be re-used on the same patient.
